“ *Butch will always be remembered how kind he was to all of his nieces and nephews. he could humor us with a joke or two. We would make it a point to find him when we came home to CC. He could be found at the coffee shop if he wasn't at home tinkering with a mower. He is now with his parents, sisters and brothers in God's house. Rest in Peace Uncle Butch.*

“ I remember when I was stationed at Camp Pendleton while in the Marines you took myself and my brother James to a movie. We went to see Star Wars in Oceanside California. You were stationed In El Centro at the time. I will truly remember that forever. Your stories and memories of growing up and your service were always interesting. You will be missed deeply.

“ Uncle Loraine, you were ALWAYS my favorite uncle 🥰 I remember when I was little and were told that you were coming to visit us in Washington, how EXCITED I was that you were coming to see us! You ALWAYS had something funny to say, and even at my young age i could tell that you really loved life. When my husband and I came through Nebraska one time, we stopped by your place so that you could meet my husband who was also in the Air force. You took us out and showed us the many many lawnmowers that you were working on 😊 I know one thing for sure, Heaven will have the Best running lawn mowers EVER!!! Love to you always until we see each other again 🥰 Salome

“ I know there are a lot of people that will miss you doing things for them as well giving them good sound advise.  
My kids all have nothing but good to say about you.  
We had our good times throughout life as well as our misunderstandings.  
We love you and will miss you, but we know you are healthy now and are with mom, dad, 2 sisters and 2 brothers.  
RIP big brother.

“ Uncle Butch you are greatly missed and I will always remember your smiling faces and infectious laughter. There wasn't a person out there you didn't have some kind of positive influence in their lives. I will not mow the lawn without smiling thinking about your love for tinkering on small engines and collections of lawn mowers that I remember as a kid.
